Why is having Critical Illness insurance so important?

Your family’s expenses will continue if and when a critical illness occurs.

Studies show that the average family spends about $7,071 during a time of critical illness and recovery. And while financial experts recommend having 3 – 9 months of living expenses set aside to help in an emergency situation like undergoing a serious illness, with today’s economy, most families don’t have that kind of money in reserve.

Quality health and disability insurance plans aren’t always enough. There may still be coverage gaps. Disability income plans cover a portion of your income while health insurance may leave you with some expenses to pay including:

- Health plan deductibles
- Prescription copays
- Out-of-network treatments
- Alternative treatments

Critical illnesses can happen at any age and more often than you may think.

The odds of you or a family member suffering a critical illness are actually quite surprising. Studies have shown:

- The average age for onset of a critical illness is 43.3
- Every year about 715,000 Americans have a heart attack.4
- 1 out of every 2 men will be diagnosed with cancer at some point in their lives.5
- 1 out of every 3 women will be diagnosed with cancer at some point in their lives.5

Critical Illness insurance can help safeguard your finances by providing you with a lump-sum payment when your family needs it most. The payment you receive is yours to spend as you see fit and in addition to any other insurance you may have.
How can having MetLife’s Critical Illness insurance plan benefit you and your loved ones?

MetLife’s Critical Illness insurance provides a lump-sum payment if you or a covered family member is diagnosed with one of the following medical conditions and meets the policy and certificate requirements: Full Benefit Cancer, Partial Benefit Cancer, Heart Attack, Stroke, Coronary Artery Bypass Graft, Kidney Failure, Alzheimer’s Disease, Major Organ Transplant and the 22 Listed Conditions. Your plan pays a Recurrence Benefit equal to the Initial Benefit for the following Covered Conditions: Heart Attack, Stroke, Coronary Artery Bypass Graft, Full Benefit Cancer and Partial Benefit Cancer. A Recurrence Benefit is only available if an Initial Benefit has been paid for the Covered Condition. There is a Benefit Suspension Period between Recurrences.

Payments will be made directly to you, not to the doctors, hospitals or other health care providers. You will receive a check mailed directly to your home. The payment you receive is yours to spend as you see fit and may be used to cover ongoing household bills like:

- Groceries
- Mortgage and car payments
- Child care
- Transportation or lodging
- Or any other way you want; the choice is yours
