Your Formulary

This Formulary outlines the most commonly prescribed medications from your plan's complete pharmacy benefit coverage list, also known as a Prescription Drug List (PDL). A formulary identifies the drugs available for certain conditions and organizes them into cost levels, also known as tiers. An important part of the Formulary is giving you choices so you and your doctor can choose the best course of treatment for you.

Go to optumrx.com/calpers for complete and up-to-date drug information

Since the Formulary may change, we encourage you to visit our website, **optumrx.com/calpers**. This website is the best source for up-to-date information about all of the medications your pharmacy benefit covers, possible lower-cost options, and cost comparisons. Some drug exclusions and restrictions may apply. To find out more please visit our website, **optumrx.com/calpers** or contact customer service at **1-855-505-8110**, TTY **711**. Please refer to you Evidence of Coverage for more information.

How do I use my Formulary?

When choosing a medication, you and your doctor should consult the Formulary. It will help you and your doctor choose the most cost-effective prescription drugs. This guide tells you if a medication is generic or brand, and if special rules apply. Bring this list with you when you see your doctor. It is organized by common medical conditions. Medications are then listed alphabetically.

Is it a generic or brand-name drug?

The drug list shows **brand-name** drugs in **bold** type (for example, **Lamictal**) and generic drugs in plain type (for example, lamotrigine).

If your medication is not listed in this document, please visit optumrx.com/calpers or call the toll-free member phone number at **1-855-505-8110**, TTY **711**.

| \$ | Drug Tier | Includes |
|---|---------------|--|
|  | Tier 1 | Most generic drugs are listed under “Tier 1” with the lowest copayments. |
|  | Tier 2 | Drugs listed under “Tier 2” generally includes preferred brand name drugs that will have lower copayments than non-preferred brand name drugs. |
|  | Tier 3 | Drugs listed under “Tier 3” generally have higher copayments than preferred brand name drugs. |
